

DAVID K.

As a Design consultant at HiQ in Stockholm, my background in UI & Branding has equipped me with the necessary skills to excel in my role. While I enjoy my working as a consultant, I am also deeply invested in developing my leadership skills and exploring creative ways to lead the design process.

Having completed my studies at Hyper Island, I have acquired expertise in facilitating and leading teams comprising diverse disciplines. I believe in the importance of continuous self-reflection, and I consistently strive to inspire and motivate those around me to contribute meaningfully towards building a cohesive team.

Let's have a coffee and talk about future collaborations!
